

Information for participants of the Summer School 2023

**** Please read it before your arrival ****

The Loutí Eco-Centre aims to educate all incomers with a focus on children and youth, not only through programmes focused on environmental protection and the development of ecological awareness, but more importantly on the practical side in everyday life in Loutí.

Ecological principles of the Loutí Eco-centre:

- Vegetarian and vegan food without leftovers and without packaging.
- A root water treatment plant - use only natural cosmetics and eco-friendly cleaning products.
- Sort waste - find waste bins in several places in the building. Compost bio-waste in the eco-centre.
- Heat recovery system in the building to exchange air regularly and maintain a set temperature. Please close the doors and windows in the cafeteria according to the weather conditions.
- Water is precious - drink baby-quality drinking water from our own well throughout the eco-centre.
- Turn off the lights in the rooms and shared toilets.

Thank you for your cooperation!

Rules for residents:

Parking. According to Feng Shui rules we keep the area in front of the building clean. For this reason, please park your vehicles in the designated parking lot located in the driveway to the Eco Center. The parking fee is 50 CZK/day paid in cash after your arrival.

Smoking is not allowed in the whole area of the Eco-centre. For smokers, there is a reserved area outside.

Please **leave your dogs at home** due to the conditions at public events.

Thank you in advance for your respect.

In case of questions please contact Zuzana Knap (zuzana.knap@lesnims.cz).
